

## Gifts of Gratitude: Grateful Patient Program

Gratitude is a powerful force that can improve patient experiences and foster a culture of success within care team settings. That's why we believe gratitude matters at Ascension St. Vincent and Peyton Manning Children's Hospital.

The Ascension St. Vincent Foundation is committed to partnering with physicians, care team members and leadership to celebrate and support expressions of gratitude from patients in various forms. As a dedicated partner to the clinical care team, the Foundation can guide patients through various options on how to express their gratitude in a way that is meaningful to each individual patient, ensuring that they feel supported and appreciated every step of the way. Once identified, the Foundation will take the time to acknowledge and celebrate the gratitude expressed, whether through personal interactions, team meetings, or recognition events.

If you are interested in learning more on how you can partner with the Foundation to prioritize patients' gratitude or to obtain marketing materials, contact your local Foundation representative listed below.
