

Support the Giving Tree at Peyton Manning Children's Hospital at St. Vincent

Often the most meaningful gifts are not material items. They are gifts that make a lasting impact and positive difference for others – like patients and families at Peyton Manning Children's Hospital at St. Vincent.

This holiday season, you can provide comfort, healing and hope to kids in the hospital through the Giving Tree. It's easy to get involved in one of two ways:

1. Display a physical Giving Tree at your business, school or church, or...
2. Share Giving Tree information with those you know electronically.

Those participating can take a tag from the giving tree or simply select an item(s) from the patient wish list below to support a child in the hospital. Each gift made will be used by the Child Life team at Peyton Manning Children's Hospital to ensure the gift is filled. Visit give.stvincent.org/givingtree to make your gift and provide comfort, healing and hope.

Giving Tree Wish List Items

- \$10 Treasure chest prizes for children completing medical procedures
- \$10 Custom stress balls to help with patients' anxiety
- \$15 Comfort items for children going into surgery
- \$15 Activity kits to reduce a child's stress of being in the hospital
- \$25 Gift cards for patients and families (restaurants, gas, and iTunes)
- \$25 Birthday gift for patients who have to spend their special day in the hospital
- \$25 New supplies for music and art therapists to use with patients
- \$50 End of treatment celebration party for an oncology patient
- \$75 Month of craft supplies for patient playroom activities
